ENERGY STAR Appliance Partner Meeting Northwest Clothes Washer Programs Best of the Best

Teri Duncan
September 28, 2006

With support from:

NW Alliance Clothes Washer Program Objectives

ENERGY STAR
Homes
Northwest

ENERGY STAR
Consumer
Products

- Maintain NW leadership role in ENERGY STAR market share
- Increase market share of washers with MEF 1.8 or higher within ENERGY STAR
- Increase consumers and retailers awareness of premium efficiency washers

With support from:

NORTHWEST ENERGY EFFICIENCY ALLIANCE
www.nwalliance.org

NW Alliance Efficiency Tiers Strategy

ENERGY STAR
Homes
Northwest

ENERGY STAR
Consumer
Products

- In 2004, NW Alliance focused on high efficiency clothes washers while supporting ENERGY STAR platform
- Provided utilities with framework to tier clothes washer rebates according to efficiency levels
- All utilities participating in 2004 DYS followed the tier model set for the promotion

With support from:

ENERGY STAR
Homes
Northwest

ENERGY STAR
Consumer
Products

NEEA Efficiency Tiers Strategy

- Worked with BPA to tier CW credits for utilities
- Additional support provided by NW Alliance:
 - Provided an analysis to utilities demonstrating the benefits of moving beyond a flat incentive level
 - Created marketing tools for educating customers
 - Supported utility efforts at retail

With support from:

Program Approach

ENERGY STAR
Homes
Northwest

ENERGY STAR
Consumer
Products

- Increase overall ENERGY STAR brand awareness and and product sales through:
 - Field support and training
 - Highly visible in-store POP and outreach events
 - Participation in nationally coordinated promotions
 - Regional promotions and marketing

With support from:

With support from:

ENERGY STAR is good. Best of the Best is better.

- The core message is always that ENERGY STAR is good, but you can step up and buy premium efficiency, or the **best of the best**.

Retail Sales Training

ENERGY STAR
Homes
Northwest

ENERGY STAR
Consumer
Products

- Up-selling and the second price tag
 - High efficiency is less costly choice over the long run, as energy and water savings, even without rebates
- Explaining MEF as powerful sales tool
 - Objective measure of efficiency, regardless of capacity
 - Allows comparison of different brands and models

With support from:

ENERGY STAR
Homes
Northwest

ENERGY STAR
Consumer
Products

Field Services

- Support for retailers key to success
- Over 600 appliance retail partners
- Regular site visit rotation every 6 weeks
- Field visits include
 - POP placement
 - Retail staff trainings
 - Program updates
 - Utility rebate information and/or forms

With support from:

Smart Savings Guide

ENERGY STAR
Homes
Northwest

ENERGY STAR
Consumer
Products

- Platform for rebates on energy efficient products
- ENERGY STAR appliances featured with focus on clothes washers marked with “**Best of the Best**” label at retail
- Educational messaging about benefits compared to conventional products
- Each incentive offer is customized for participating retailer or manufacturer

Earth Day Marketing

THE RIGHT THING TO DO FOR THE EARTH
CAN BE THE RIGHT THING FOR
YOUR POCKETBOOK TOO!

\$150 + \$50 = \$200

An increase of \$50 to Cascade Water Alliance residential customers when buying a clothes washer with a water factor of 5.0 and below.

To residential electric customers of Puget Sound Energy when buying a clothes washer with an MEF of 1.8 or above.

To eligible customers when a qualifying machine is purchased between April 1 and May 31, 2006.

Premium efficiency ENERGY STAR qualified clothes washers with an MEF of 1.8 or above use 50% less water and 67% less energy. Now that's something to celebrate!
